

THIRTY FIRST YEAR

LANCASTER, KY., THURSDAY AFTERNOON, JUNE 3, 1920.

NUMBER 12.

NEW HOME

Of J. E. Dickerson and Son A Dream.

OPENING NEXT SATURDAY.

With the opening of the new home of J. E. Dickerson and Son next Saturday, Lancaster will have one of the prettiest stores in Central Kentucky.

Located on the West side of the public square and adjoining the Stormes Drug Store, the interior elegantly finished with mahogany, the handsome fixtures of the same expensive materials, a beautiful winding stairway leading to the second floor, the front show window, being especially arranged for displaying merchandise, absolutely the latest designs in show cases, of the most expensive patterns, the whole interior presenting every modern convenience and taken as a whole, is undoubtedly one of the prettiest stores we have ever had the pleasure of seeing.

Under the management of the junior member, Mr. Wesley Dickerson, this firm has come rapidly to the front and today stands among the leading dry goods and ladies ready-to-wear stores in the state.

The opening of their new quarters next Saturday, will attract many people to their store, where they will be given a cordial welcome and an invitation to inspect their immense line of ladies, Misses and childrens shoes, notions, dry goods, etc., all of which can be seen on the first floor the second floor being used exclusively for ladies ready-to-wear, which is also equipped with all modern conveniences.

Grow.

The death angels visited the home of Mr. and Mrs. Hobart Grow on Sunday afternoon, May 23rd and took from them their darling baby girl, Stella Mae. She was only four months old and sick only a short while having died of pneumonia. The dear parents can be comforted for the Lord has said "Blessed are the pure in heart for they shall see God". Dear little Stella Mae had been with them only a short while but she was loved by all who knew her. She leaves to mourn her loss, a father and mother, and the sympathy of the community is extended them in their sad hours. Her dear little body was laid to rest in the Lancaster cemetery. May the Lord them and let them meet her in German-land above.

DEMOCRATIC VICTORY

Foreseen By Kremer.

Kentuckian Who Will Open Convention Has Faith In People's Vote.

J. Bruce Kremer, Montana, who will open the National Democratic Convention in San Francisco, June 28th, expressed himself Wednesday as confident that the person nominated for President at that convention will be elected.

"I have an abiding faith in the good judgment of the American people," he said. "They will not turn out of power a party that has given them the greatest administration in half a century."

Mr. Kremer, a former Kentuckian, is first vice chairman of the National Democratic Committee, and it is by virtue of that fact that he is to call the big Democratic gathering in San Francisco to order. Chairman Summings has been agreed on to serve as temporary chairman of the convention.

While in Louisville yesterday Mr. Kremer called on Gen. W. B. Haldeeman, who, because of ill health, resigned recently as National Committeeman from Kentucky.

ANOTHER BIG SALE

J. I. Hamilton Sells Bradshaw Farm.

Last Saturday morning in about two hours time, Mr. James I. Hamilton sold for Messrs Bradshaw Brothers, their farm containing about 314 acres, lying near McCreary, at public auction for a total of nearly \$90,000, it being sold in four tracts. The first tract containing 73 acres was bought by James Snyder and Jesse Sebastian for \$280 an acre; the second tract of 130 acres went to John Pendleton for \$275.00 an acre; the third tract of 96 acres going to John Dailey for \$270.00. A rocky point of 15 acres was "knocked down" to Jim Prather for \$150.00 an acre. This is considered one of the best sales made in the county this year. The farm is a splendid tobacco farm and the purchasers will make money out of it, we dare say.

Messrs A. D. and Walker Bradshaw have recently purchased a large farm in Boyle county and have taken possession of it. On this farm they will conduct their annual Aberdeen-Angus Sale, of 42 head of as fine a specimen of this breed as was ever offered at a public sale. June 16th is the date of this sale, the announcement you can see in a half page advertisement in this issue of the Record. Read it and remember the date.

Tudor.

On Friday evening, May 28th 1920 death relieved the sufferings of little Ollie B. Tudor, the ten months old son of Mr. and Mrs. Thurman Tudor, of Paint Lick. The little one had been ill some time and all that willing hands and loving hearts could do, was in vain. The parents and two little brothers have the sympathy of many friends. May Heaven send dearer than ever before with dear little Ollie up there. He will be watching and waiting for them, where cometh no trouble or care. God can heal the broken hearts, time will dry away the tears, but sweet memory of your loved one, will remain for many years.

J. G. Cecil Wins.

The Court of Appeals on Friday, May 14th, decided in favor of James G. Cecil versus C. P. Cecil and C. C. Bagby, executors of Granville Cecil, deceased, reversing the decision of the Boyle Circuit Court at the January term over the possession of Melrose farm and the accumulated proceeds from the farm since the death of Granville Cecil. James G. Cecil, the owner, was represented in this litigation by the honorable and brilliant attorney, Col. Edward H. Gaither, of Harrodsburg. The alleged owners of Melrose farm had six attorneys. Melrose farm, under the management of James G. Cecil, has become the most noted trotting horse farm in the country. James G. Cecil had sold horses and is favorably known all over the United States, Canada and Europe. There has never been a single horse registered except accurately as bred nor has James G. Cecil ever owned any but horses with authentic records accepted by the American Trotting Horse Register Association, of Chicago, Ill., the recognized authority in these matters.—Kentucky Advocate.

MEMORIAL SERVICES

At Auditorium last Sunday Night Brings Out Good Crowd.

While the rain storm kept many from the auditorium last Sunday night, the memorial services under the auspices of the Heidal Sanford Post of the American Legion drew a good crowd and the house was practically filled. The services as a whole was very impressive and the program rendered was all that could be wished for.

Billy Miller was the chairman of the meeting, introducing the speakers in his own inimitable way. Miss Amy Daves favored the audience with several selections of the violin, each number bringing continued applause by her masterly art upon this favorite instrument.

The Caswell Sauley Post, of Stanford was well represented, several from there joining in the services with the local Post. Mr. Joe Reynolds making a short and appropriate address, which was well received.

Mrs. Ed C. Gaines made a splendid talk and in eloquent words complimented the boys of the Legion in their effort to establish a body of men composed of 100 per cent Americanism. The principal address of the evening was made by Rev. H. S. Hudson and held the attention of the crowd for thirty minutes. It was a masterly sermon and very appropriate for this memorial occasion.

Members of the Legion occupied the center aisle of the auditorium and as they marched in were given a hearty applause.

Seats on the stage had been arranged for the "old veterans" of former wars, whose ranks are fast thinning. Owing to the rain which fell in torrents at the time of the meeting, only four were able to attend. They were Capt. T. A. Elkin, "Col." John M. Farra Capt. William Herndon and "Col." A. T. Anderson.

Too Much Money.

Sometimes we wonder if it is good for the American people to have so much money.

Of course the natural instinct of a man is to accumulate as much money as possible, and money is a decided necessity these days.

But it is possible to have too much of a good thing.

The war has made America fabulously rich, the envy of all nations. Men who in 1914 had nothing now are comfortably well off. Others who had a modest sum six years ago are now rolling in wealth.

The result? You see it every day. In the cities it is more apparent than in the country towns. In the big cities no manufacturer will produce, no middle man will distribute, and no merchant will sell an article at a reasonable profit. All seem to want to get rich quick.

Employees demand prohibitive wages, work about as they please, and in many cases are becoming about as inefficient as could be imagined. Instead of the employer being the master of his own business, his hired help practically tells him where he gets off.

The war produced the profiteer, and for the sake of easy money he refuses to loosen his grip upon the country.

Buildings are thrown together in slipshod manner and inferior materials are used, all for the sake of cutting expenses and increasing profits to abnormal.

In the manufacturing world it is the same. Quality is sacrificed for profits, or where quality does prevail the price becomes almost prohibitive.

Of course there are some exceptions to this rule, but the exceptions are few and difficult to find.

The ease with which money has been accumulated during the past six years has produced this state of affairs. It is not conducive to the future welfare of our country.

But we have faith in America and in American people.

We are in the temporary grip of a hysterical mania for the rapid accumulation of wealth, but we believe that this mania will pass away in time and permit a return to the sane and rational methods which prevailed prior to the outbreak of the war. But it will require time and we must employ infinite patience in bringing it about.

Americans are too sensible to travel far on the road that leads to destruction.

Even the lure of unlimited gold can not deprive them entirely of their common sense.

CHAUTAUQUA

To Open Here July 2nd and continue for Five Days.

SPLENDID PROGRAM ASSURED.

The opening of the great Redpath Chautauqua in Lancaster on July 2nd, and continuing for five days, will be welcomed by its many patrons throughout the county, who have patronized it for the past five years and look forward each year to its coming, with anticipated pleasure.

Those in charge of the tickets should now get down to brass tacks and see that all the pledges are taken up and not wait until the last week before the great event takes place. Enough pledges for tickets were easily secured last year and it only remains now for some one to distribute them. These tickets are now at the Citizens National Bank, in charge of Mr. L. G. Davidson, and anyone knowing that he has subscribed for some of the tickets, should call at once at this bank and get them. Season tickets are much cheaper, than to buy them at each entertainment, they being \$2.25, with 25 cents additional for war taxes, making a total of \$2.50.

Some rare entertainments are booked for the engagement here, among them being:

The Red Grenadiers Band and Male Chorus, four splendid musical companies, great lectures on timely topics—these are notable attractions which will appear here on the 1920 Redpath Chautauqua. The entire program is replete with features of compelling interest and timeliness.

The Premier Singers and Players Company will be the attraction of the first afternoon. Four talented, vivacious artists compose this company. They render programs of great variety, combining orchestral, vocal and special novelty features. Every number is given with a brightness and sparkle which will make this company long remembered in the community. A striking feature of the programs will be the rendition of selections from the standard operas. This is a feature which never fails to please Chautauqua audiences.

"The Man of the New Age" is the lecture theme of Dr. George L. Parker who will speak here on the opening night of the Chautauqua. Dr. Parker is a widely known inspirational lecturer who always gives to his hearers a message distinctly worth while. He is a virtue, magnetic speaker and one who holds his audiences both by the force of his ideas and the magnetic quality of his oratory.

Earl H. Hipple, "Wizard of the Xylophone," is manager of the Hipple Concert Company, which will appear here in a prelude on the second afternoon and a grand concert at night. The company's program is both classical and popular in character and is so universal in scope that it pleases the entire audience. Four artists of attainment compose this excellent concert company.

Judge Manford Schoonover, on the second afternoon, will give his great lecture "Unseen Forces". Judge Schoonover is a man's man, who talks "straight from the shoulder." He has fought his way up from obscurity to a place of trust in the councils of his state. He is "home folks," the kind of a man you will enjoy meeting at the close of the address. In his inspiring lecture he portrays the great lesson of self-respect, the call of the still small voice of one's better self.

Small Farm At Auction

In next weeks issue an advertisement will be run announcing the sale of the old "J. N. Teater home place" containing 41 acres. Watch for the advertisement as to date and liberal terms.

DISCIPLES RAISE

\$250,000 IN DRIVE

Local Church Goes Over Quota.

DRIVE WILL BE CONTINUED UNTIL ALL CHURCHES HAVE OPPORTUNITY TO TAKE PART.

The local Christian church has more than subscribed its quota to the Disciples World Movement, the total amount raised thus far, being about \$6,000, the quota asked for was \$5,800.

Dr. Clifford Weaver will be in charge of the Kentucky Division Disciples World Movement until the \$1,200,000 quota for the year has been raised or until every Christian church in Kentucky has had an opportunity of saying whether it desires to have its share in the movement. Dr. Weaver said the total pledged to date was in excess of \$250,000.

"We are proud of the effort made by the Disciple churches which have responded so nobly to the call for Christian service," said Dr. Joseph W. Hagin, state director of the campaign, of Lexington. "It has been a lesson to us in unselfish devotion to the cause of the Master and to the great cause of education and missions of the Disciples Brotherhood. The fact that many churches have had other campaigns on their hands and have not had the opportunity to make the campaign necessary to raise the quotas assigned to them has handicapped us and made necessary a continuance of the campaign. Dr. Weaver is amply able to look after it, and opportunity will be given before it closes for every member of the Christian church in Kentucky to give or pledge a sum of money for this most worthy cause."

"Surely the gifts of the churches which have responded to our appeal is 'like treasure laid up in Heaven,' for it will make possible the payment of living salaries to hard-pressed teachers in our colleges and improvements which absolutely were necessary, if these colleges were to maintain their standard of excellence in former years."

Dr. Weaver will have an office in the Central Christian church's educational department at Lexington, from which he will conduct the campaign for the remainder of the fund, which it is hoped to raise within the next two months.

CATALOG OF FARM SALES

Several Thousand For Swinebroad Being Printed At This Office.

We are getting out this week for G. B. Swinebroad, the real estate man, several thousand catalogues, announcing the various sales that he will conduct during the month of June. It is one of the "niftiest" jobs we have ever put out and it will pay anyone interested in a farm to write Mr. Swinebroad for one of the catalogues. It also contains a number of farms that he has listed with him and that he will sell privately.

Mr. Swinebroad is a great believer in printers ink and spares neither time nor expense, in telling the people just what he has to sell, what he proposes to sell and what he "always sells." Write for one of the catalogues, it will interest you.

There will be no evening services at the Christian Church next Sunday evening on account of the Union Baccalaureate services at the High School Auditorium at that time. The usual morning services and the Young Peoples Meeting will be conducted at the regular time. The subject of the morning sermon will be "A Seeming Anticlimax."

Marriages.

Married at the Methodist parsonage, Monday, May 24th, Mr. Sherman Henry Gay and Miss Ida Locker. Rev. F. D. Palmeter officiated.

At the same place Mr. Robert Tudor and Miss Callie Estes were married on Thursday May 27th, Rev. Palmeter also officiating.

More Work Than Pay.

Congress should come to the relief of the postmasters and the postal employees of the country.

The pay is so small and the cost of living is so high that experienced men are resigning at an alarming rate in this branch of the public service. It is crippling the mails and retarding business to a serious extent, and creating a state of public uneasiness over the country.

Congress appoints committees to investigate and the committees consume much time in palavering, and that is about as far as they go. The postal employees continue to exist on small pay, or quit, and the service becomes more crippled through the employment of new and inexperienced help.

We have no fault to find with the postal service itself. We believe it is doing all that it can do under seriously handicapping conditions. We do not believe that any business enterprise could long continue to exist under these same conditions.

The laborer is worthy of his hire the world over, and so long as employees in the mails of trade are receiving high wages to meet the advanced cost of living, the man who handles the mail of this great country should receive equal consideration.

Merchants do not make him a discount when he buys his food and clothing from them.

Why should the government expect him to discount the value of his services?

MORROW

Acceptable To progressive Wing

Urged for Convention Seat As Representative of Anti-Ratificationists

Washington.—Gov. Edwin P. Morrow of Kentucky may be permanent chairman of the Republican National Convention. Republican progressive leaders recently that they had been unable to reach an agreement on this policy, but said they would be satisfied if the Governor of Kentucky were named.

Old Guard leaders, looking at the politics involved say that the recognition of Governor Morrow would go a long way toward placing Kentucky in the Republican column in November, and would aid the group of Republicans trying to win the South.

Progressive Republicans said Governor Morrow's views on the treaty were acceptable to them, and agreed that with Governor Morrow presiding both Republican groups would be represented in the proceedings, Senator Lodge standing for the reservationists and Governor Morrow representing those opposed to ratification.

Republican Senators learned from Senator Watson, Indiana, who returned from Philadelphia recently that Senator Penrose's health was such as to permit him to journey to Chicago. Mr. Penrose, while not strong enough to join in all the proceedings on the floor, intends to be active on the final ballot.

Late reports from Mr. Penrose indicate that he intends to exert all his power to nominate Senator Knox for President. If he is able to accomplish this, those who are familiar with the inside moves say, conditions will force Senator Johnson to accept second place.

Set a thief to catch a thief and you are liable to become a victim of both thieves.

Keep Well

Do not allow the poisons of undigested food to accumulate in your bowels, where they are absorbed into your system. Indigestion, constipation, headache, bad blood, and numerous other troubles are bound to follow. Keep your system clean, as thousands of others do, by taking an occasional dose of the old, reliable, vegetable, family liver medicine.

LIVE STOCK

CLUB MEMBERS JUDGE STOCK

Contests Conducted to Improve Methods Used in Production and Care of Live Stock.

(Prepared by the United States Department of Agriculture.)

It is almost as important as it is to raise one successfully. If a person does not know what constitutes food points in an animal, he is obliged to rely on someone else's judgment in both buying and selling. That is one reason why boys and girls in the clubs supervised by the department of agriculture and the state agricultural colleges are being trained in stock judging. At the county, state, and interstate fairs, live stock judging contests are conducted and demonstrations given by club members to interest the public and improve the methods used in the production and care of live stock.

Some of the Club Boys Who Are Learning to Judge Stock and Do It Skillfully.

At the Missouri state fair boys' and girls' club teams judged both beef and dairy cattle. In putting on the demonstrations each member had his particular part to do. The captain of the team introduced one member, who gave the history and characteristics of an ideal beef animal and the same for one of dairy type. Another member compared dairy and beef cattle by using an animal exhibited at the fair to illustrate his points. The captain then scored a beef steer, using a large score card that could be read by everyone in the audience. Each point was discussed and the rating of the good and poor features of the animal were pointed out and scored.

At the interstate fair, at Sioux City, Ia., the Nebraska live stock judging team won first honors in competition with teams from North Dakota, South Dakota, Missouri and Iowa.

RAISE STANDARDS OF STOCK

Activities of Live Stock Association Illustrate Benefits of Co-operation.

The manner in which co-operative buying can further the movement for better stock is illustrated by the activities of a live stock association in northern Wisconsin. It purchased 32 head of fine cattle from another part of the state and also several head from its own vicinity. The association sold these animals individually to various stock raisers. The money netted by the transaction was used in further promotion of the purebred cause by purchasing 8 purebred bull calves. The calves were then distributed by lot among the members of the association. Thus the co-operative effort of the association has made possible raising the stock standards on the farms of practically the entire community, having brought into the county \$10,000 worth of well-bred live stock.

KEEP PUREBRED LIVE STOCK

There is No Danger of an Oversupply and Efficiency Has Been Conclusively Proven.

There never was a time in history when pure bred livestock of all kinds received more attention than now. The efficiency of pure bred livestock has been conclusively proven. There is no danger of an oversupply.

CONSIDER SHEEP AND GOATS

Animals Worthy of More Attention Than They Receive—They Keep Down Noxious Weeds.

Sheep and goats deserve more consideration than they receive on some farms. These animals are able to eat some of the coarse feeds and may keep down noxious weeds in pastures.

LIVE STOCK NOTES

The price of successful lambing is eternal vigilance.

Sows should not be bred to farrow until they are at least twelve months old.

Forage crops furnish the best possible way of cheapening the cost of pork production.

German millet hay, properly cured, is a very good feed for cows but not very satisfactory for horses.

The world, we are assured, will become reasonably decent in time. But who has hopes of living a thousand years to see the fulfillment of a doubtful prophecy?

There is one sweet consolation in being poor. We don't have to worry over how to prevent the government from annexing the most of our income.

Scandalously high prices are said to have followed every important war of recent history. That is consoling, but not very filling to an empty stomach.

It takes time, brains and great personal effort to accumulate a fortune. Men will make large contributions of their hard earned fortune for the sake of electing "their man" to public office. Why?

McRoberts Says

After you eat—always take EATONIC

Instantly relieves Heartburn, Bloating, Gas, Stomach Souring, indigestion, and all stomach ailments. Also dispels and appetite. Keeps stomach and bowels active. Increases vitality and promotes good health. EATONIC is the best remedy. One of these little wonderful tablets. Only one or two taken after each meal. Put them in your pocket or purse. They will save you. Get a box today. You will see.

What's become of the prejudice against automobiles because they frightened the horses

NOW cars are everywhere. The horses have gotten used to them—and so has everybody else. Think of it! This year the American people will spend nearly a billion dollars on tires alone.

Tires are one of the biggest items on the car owner's bills.

Hardly a Saturday, when you motorists drop in to "tune up" for a Sunday trip, that one or more of you doesn't tell us something of value to our business. Sooner or later it comes back to you in Service.

Service is what the car owners of this community are looking for nowadays.

And especially the small car owners, who put service

first in figuring their motor-ing expenditures.

just because a man has a moderate - price car is no reason why he should get any less service out of his tires.

We believe that the man with the small car is entitled to just as good tire service as the man with the big car—and both are entitled to the best tire service they can get.

That's why we represent U. S. Tires in this community.

And why more car owners—large and small—are coming to us every day for U. S. Tires.

Come in and talk to us about tires. We're here to help you get the kind of tires you want.

"Go to Church Sunday." This ad-
vice has been given millions of times,
yet with some it has never been
heeded. Possibly there was a flaw
in the giving. It may not have con-
tained that simple and appealing
note of humanity which draws the
one who needs it most. Yet there
is no one so hardened and so sinful
but what he can enjoy an hour in
the church on Sunday. Some who
stray in accidentally become regular
attendants in time. The story of the
Man of Mens grips them. It is more
thrilling than the wildest fiction
ever penned, and each Sunday you
hear a new chapter in the life his-
tory of this man who was of flesh
and blood and yet was the offspring
of divinity. Go to church Sunday.
It will be good for you, and it will
do others good to welcome you there.

Have you a child of school age?
Then give thought to our public
schools. Let the principal and the
teachers understand that they are in
your mind and that you are appre-
ciative of the good work they are
doing in training your child to meet
the intellectual problems of life. If you
plant a rose bush and it flourishes
and blooms your neighbors see it and
appreciate its fragrance and beauty.
The instructors of our children are
of infinitely more importance than
the choicest flower that ever bloom-
ed. Let us give them the recogni-
tion and the attention and encour-
agement that is their due. Their
lives will be sweeter and their work
better, and in after years your child
will be the beneficiary of your thot-
fulness and attention and their faith-
fulness to duty.

Every community has its spirit.

With some it is one of honor and in-
tegrity and progressive intellectuality.
With others the spirit of greed,
gouge, repression and retrogression
predominates. The first attains its
aim in life, while the latter aims no
higher than that which it attains.
We of this community have our
choice. We can progress with the
march of time, or we can procrastinate
while time marches by. This
is an age when men do things, or
they do nothing. There is no mid-
dle of the road course. The man
who has the will to grasp his oppor-
tunities also has the power to make
them. That is what he should do.

Don't condemn the swaggering boy
too severely. He is not responsible
for his own existence, nor is he re-
sponsible for the traits of character
which put the swagger into his step.
Heredity and environment often
make or break a boy in the making.
Even those whose home life is not
as it should be may have their char-
acters strengthened and developed
through the kindness of others. A
word of sympathy and cheer to the
lad on the street is a long step toward
the moulding of the character of the
man of the future.

The bright sunshine of summer
days dispels the spirit of gloom and
instills a feeling of gladness in the
human heart. It makes the bright
side of life even brighter and en-
ables us to see the goodness which
warms the hearts of our fellow men.
It diverts our thoughts into pleasant
channels and drives out the shadows
which have enshrouded us during the
winter months. Welcome the sun-
shine of summer days, for its warm
rays produce both the joy and the
sustenance of life.

All people of normal intelligence
have the power to think and reason.
A few practice it. Words that are
the result of analytical thought pos-
sess the force and power which drives
the human activity of the world.
Those that are babbled thoughtless-
ly and without reason fall upon fer-
tile soil and are magnified into moun-
tains of iniquity that reach even to
the gates of eternity. Think twice
and speak once. It is the better
way.

Heaven and hell are a long way
apart, but some people try to straddle
through life with a foothold in
each place.

LIME IN BARRELS.

one's appetite, however, they still
cling to the old name.

The railroads want a billion dollar
increase in freight rates, or rather
they want an increase that will pro-
duce that much additional income.
Give it to them. The consuming

In Spanish Morocco, a lecturer
tells us, there is a tribe of natives
who treat their wives as beast of
burdens and their daughters are sold
to the highest bidder. But why pick
on illiterate and unenlightened Mo-
roccos? We have only to look around
in our own land to see the best of
burden as her toll and the daughter
decked out in peckable finery to
catch the richest husband.

Estes-Tudor.

On Thursday morning May 27th,
Miss Collie Estes and Mr. Robert
Tudor were united in marriage which
came as quite a surprise to their
many friends. The bride is 20 years
of age and the lovely and accomplish-

never looked prettier than on her
wedding day. Mr. Tudor is certainly
to be congratulated on winning such
a lovely girl as a life companion,
whose winsome ways and beautiful
character has endeared her to the
community. The groom is 22 years
of age and the oldest son of Mr.
Brutus Tudor, and one of the most
substantial farmers of this commu-

them a most prosperous and happy
life together and may every day be
as happy as on their wedding day.

To The Citizens of Lan- LAD OF HANGING caster, Ky. FORK FARM.

Honorable Mayor, City Council and
People of Lancaster, Ky:—

Whereas, the franchise now held by
us is void by reason of being in con-
flict with the State Constitution, and

Whereas, we have no franchise for
operating our plant in the City of
Lancaster, Ky., because the same is
void as aforesaid, the City Council of
the City of Lancaster, Ky., and the
public generally are hereby notified
that we will on August 1st, 1920, or
as soon thereafter as practical, move
all our poles and electrical equipment
from the streets of the city of Lan-
caster, Ky.

This notice is given as a legal no-
tice, as we understand that reason-
able notice must be given before we
can remove said property and dis-
continue said plant.

We are willing to do anything we
can to co-operate with the city in se-
curing a franchise for the purpose of
furnishing electric light and power to
the citizens of the city, but we can
not continue it further without ex-
pensive additional equipment, and
this we can not do at the present
rates and without a legal franchise
protecting us in our rights.

Done this April 26th, 1920.

Mr. and Mrs. A. C. Miles have just returned from Washington City where they attended the Southern Baptist Convention.

Mrs. Nicholas A. Barth and baby, and Mrs. Charles Smith, returned to their home in Charleston, West Va., Friday, after several weeks visit with their parents Mr. and Mrs. N. Miller.

Mr. R. L. Elkin leaves for Atlanta tomorrow, to see his son, Dan C. Elkin, graduate in medicine next Tuesday. Mrs. Elkin who has been in the south for three months will return with them.

Mr. Joseph Marsee, of Garrard County, and Mrs. Rachel Marsee, of Boyle county, were married Wednesday in Nicholasville by the Rev. T. H. Athley at the Baptist parsonage. The bridegroom is 63 and the bride 42.

Mrs. Ezza Fletcher of Indianapolis Ind. who has been visiting her parents, Mr. and Mrs. Boyd Turner on the Buckeye pike and Mrs. W. L. Fletcher of Paint Lick, will return to her home this week. She will be accompanied by her mother who will remain for a visit.

Messrs Ernest Sherrow, of Beattyville, Roy Pigz of Marksburg and Clarence Walton, of Buckeye and Miss Linda Locker, also of Buckeye, all deaf mutes, attended the closing exercises of the D. and D. Institute at Danville last week.

Dr. and Mrs. W. M. Elliott entertained Tuesday evening with an elegant 6 o'clock dinner at their home on Maple avenue. Lovely spring flowers were used for the house and table decorations. A delicious six course menu was served. About twelve guests enjoyed the charming hospitality of Dr. and Mrs. Elliott.

Mr. and Mrs. W. B. Burton gave a dinner party Tuesday evening at their home on Maple avenue in honor of Miss Martha Kavanaugh, whose marriage took place Wednesday afternoon. The house had beautiful decorations of pink and white roses and the table was adorned with peonies. It was a very delightful affair.

The numerous friends here and elsewhere of Miss Carrie Reid, will be glad to know that she has accepted a splendid position as saleslady with the J. P. Wasson Co., one of the large department stores, of Indianapolis, Indiana, to which city she went last week. She will be with her sister, Mrs. William White and Mr. White, who reside there. Her many friends wish her all success in her new home.

Mrs. E. L. Gadberry and children, of Lancaster, took the train here Sunday afternoon for Elizabethtown, where they will visit relatives for a month. Mr. Gadberry accompanied them to this city and remained over until Monday afternoon with friends. Miss Annie Ashlock went to Lancaster this morning to visit her sister, Mrs. W. W. Zanone—Miss Mary Greer is visiting Mrs. Holman Brown at Lancaster.—Interior Journal.

Spring flowers were used for decorations at the bridge party which Mrs. J. E. Robinson gave Monday afternoon at her home on Lexington avenue in honor of her house guest, Mrs. Robert Todd, of Ohio. Delicious ice cream, strawberries and cake were served. The following guests

were present: Mrs. Hayes Foster, Miss Lisle Cooper, of Stanford, Mrs. Robert Todd of Ohio, Mrs. Lewis Landram, Mrs. Clay Sutton, Misses Martha and Helen Gill.

Mr. George W. Chestnut, of this city, and Miss Blanche Allgood, of Tampa, Florida, were united in marriage in the Baptist church in Cincinnati at noon today, the ceremony being performed by Dr. W. L. Walker, pastor of the First Baptist church of Danville. Those present were Mr. and Mrs. R. C. Stoll of Lexington, Mrs. T. B. Bright and Miss Rena Bright, of Danville. The marriage came as a pleasant surprise to the host of friends of Mr. Chestnut in this city. His bride is known to many Danville people and she is an attractive and accomplished lady and will be a most welcome addition to Danville society. After a bridal trip they will be at home at Mr. Chestnut's handsome home on Lexington avenue.—Danville Advocate.

The recitals given by the advanced, primer and primary students of the music department of the High school on Saturday afternoon and Monday evening was held before a vast and highly pleased audience in the auditorium of the school building. The work consisted of piano ensemble, piano trio, quartettes and solos. The class gave some wonderfully beautiful numbers, and their brilliant, careful technique showed the most careful training of their teacher, Mrs. Mae Hughes Noland, who has charge of all of the music during the commencement exercises and needless to say it will be splendid throughout the program. The following took part in the program: Misses Nell Noland, Stella Henry, Thelma Hamilton, Lillian Estes Mary Palmer, Faye King, Mattie Mae Hubble, Elsie Hatfield, Virginia Beazley, Jane Haselden, Marguerite Thompson, Shirley Denney, Georgetta Walker, Josephine Burnside, LaVerne Dickerson, Margaret Elliott, Edna Hatcher, Marjorie Bastin, Nancy Tom Lear, Jane Hayes, Virginia Aldridge, Della Rice Hughes, Vela Vaughan, Messrs Roger Bourland, Thomas Hatcher, chorus by Primer Grade and chorus by the Primary grade.

The following invitations have been issued:

The Graduating Class of the Lancaster High School, announce their Commencement exercises Auditorium Monday evening, June seventh Nineteen hundred twenty eight o'clock.

Doolin-Lewis.

The marriage of Miss Allie B. Doolin and Mr. Oscar Lewis, was solemnized last Thursday at noon in Nicholasville, at the Baptist parsonage, by the Rev. D. H. Willett.

Immediately after the beautiful, and impressive ceremony the happy couple motored to Versailles, where they were guests of the grooms parents, Mr. and Mrs. T. G. Lewis, until Sunday afternoon.

Miss Doolin is the attractive and

accomplished daughter of Mr. and Mrs. Tom Doolin, and noted for her lovely disposition.

Mr. Lewis is a son of Mr. and Mrs. T. G. Lewis, formerly of Garrard, but now of Woodford, and is a splendid young man and a prosperous farmer. He is to be congratulated on winning the girl of his choice, and we wish for both, that every day through life may be as bright and happy as on their wedding morn.

The couple will make their home this year, on the Buckeye road, with Mr. and Mrs. Tom Doolin.

Kavanaugh-Scott.

One of the most beautiful of the spring nuptials was that of Miss Martha Kavanaugh to Mr. John R. Scott, which was solemnized Wednesday afternoon at 3 o'clock at the brides home on Crab Orchard street. Rev. H. S. Hudson, of the Presbyterian church, officiated and the ceremony was beautiful and impressive.

It was a pink and white wedding and the decorations of the home were artistic and beautiful in quantities of roses and peonies. The wedding march was played by Miss Katie Barnes Dickerson, who presided at the piano and Miss Amy Dawes with her violin. A beautiful programme was rendered as the guests gathered and only relatives and most intimate friends were present for the ceremony. There were no attendants.

The bride was lovely in her tailored suit of dark blue cloth. She wore a stylish blue taffeta hat and carried a shower of pink rose buds and lilies of the valley.

The bride is the daughter of Mr. and Mrs. Arch Kavanaugh, of this city, and is one of Lancaster's beautiful young girls and is charming, attractive and much loved and admired.

Mr. Scott is popular with a host of friends and is a prosperous business man of Nicholasville. They were showered with best wishes and congratulations for a life of much happiness and left immediately for a trip of several weeks in New York and on their return will make their home in Nicholasville. They were remembered with many handsome gifts.

Settlement of 127,151 insurance claims, for death and total permanent disability, and representing a total value of \$1,135,552,173.45 is announced by Director R. G. Cholmeley Jones of the Bureau of War Risk Insurance. Only 5,119 claims are pending, and in these cases the claimants are beneficiaries in many instances in foreign countries where disturbed conditions render communication impossible.

It now requires only about five days from receipt of final evidence of death in an insurance case for the issuance of the first check, and frequently cases have been handled even more rapidly in the Compensation and Insurance Claims Division of the Bureau.

In cases of total permanent disability, men have been examined, the award made, and the first check placed in their hands, all within a very few hours.

LIME IN BARRELS. HUDSON AND FARNAU.

Eskimo's Summer Home.

In the summer months, during four months of which the sun never sets, the Eskimos live in tents. These are made of skins and are shaped somewhat like a boat cut in half. In the rear of the tent the bed is spread, while in the wide, high open front a snuggly burns day and night. This smoke fire serves to drive away the mosquitoes, which are large and ferocious.

Mocha Sheepskin.

The world's supply of Mocha sheepskin is obtained by about a dozen buyers, who have their native collectors, in caravans to collect the skins at various centers, of which Mocha, Berbera, Zeylah and Hodeidah are the main points. From there they are sent to Aden, a British coaling station, which, on account of its location, is the shipping point for skins sent to London, the continent of Europe, and the United States.

TWO FARMS FOR B. D. HOLTZCLAW

LOCATION OF FARM NO. 1—TO BE SOLD ON JUNE 16th—102 acres in Lincoln County, Ky., on the Stanford and Crab Orchard pike, 8 miles Stanford, 2 miles Crab Orchard. This is a nice home—a pleasant place to live. 8 room two story dwelling, 2 halls and 2 porches. Large stock barn 70x62 with 11 box stalls and cattle sheds, concrete silo 14x40. Cribs and other outbuildings. Beautiful yard to pike. No waste land on this farm. 30 acres in corn, 60 acres in grass, balance in timber. We don't know what this farm will bring, but if you want a good home and 100 acres of land to cost you around \$15,000.00,—DON'T OVERLOOK THIS. But remember it is up and selling to the "High Dollar". You name the price. Sold for possession in 30 days or January 1, 1921, as you prefer.

LOCATION OF FARM NO. 2 TO BE SOLD ON JUNE 17th—211 acres in Lincoln County, 1/2 mile from the Danville and Stanford pike, 3 miles from Stanford, 2 miles from Danville, on Hanging Fork. Everybody knows that good Hanging Fork land. Some virgin Blue Grass sod. Now this is a corking good farm and a producer. 6 room dwelling, 2 halls and 2 porches, 2 stock barns, tenant house and other out-buildings. New tobacco barn to be built right away. 10 acres tobacco, 60 acres corn, 50 acres meadow (and this is some meadow), balance blue grass. Now listen:—By reason of not fronting right on the pike this farm may sell for a real bargain. It is certainly a money maker. Attend these sales. It might be the most profitable trips in your life.

Remember Swinebroad "ALWAYS SELLS" and worth the money. The only man who always advertises no by-bids and then sticks to it. This farm will perhaps be sold in two tracts to give the 100 acre man a chance to buy.

Memorize the two dates—JUNE 16th and 17th, and the locations. Then follow your memory. The land will be sold on easy terms, and for possession at once with the crops or January 1, 1921, as the purchaser may prefer. Buy land now, you will pay more later. Many have missed a bargain by failure to attend at my sales. Don't let these opportunities slip.

For further particulars see B. D. Holtzclaw at the farms, or W. E. Moss or R. H. Dever at my offices at Danville, or

Just after the sale on June 16th, Mr. and Mrs. J. W. Crutcher will furnish lunch at their home just across the pike and then sell their farm of 140 acres.

3-Dandy Farms-3

OF J. W. HIGGINS, AT

PUBLIC AUCTION

TUESDAY, JUNE 15th

10:00 O'CLOCK, A. M.

In Casey County, Kentucky, **RIGHT AT MIDDLEBURG**, on the Middleburg and McKinney Pike, 7 miles of McKinney, 8 miles of Hustonville.

TRACT NO. 1—85 ACRES; TRACT NO. 2—70 ACRES; TRACT NO. 3—75 ACRES. TRACTS NO. 1 AND NO. 2 JOIN AND MAKE A SPLENDID FARM OF 155 ACRES.

IMPROVEMENTS:—ON TRACT NO 1—splendid two story dwelling, with seven rooms, two halls, two porches, cistern, barn—50 by 80, 7 acres in wheat sown to grass, 7 acres tobacco, 16 acres clover, balance in blue grass.

ON TRACT NO 2—7 room dwelling, three porches, two halls, barn 50 by 50, water in barn. Cribs, stock scales, machine sheds, and all out buildings. On this tract 25 acres of bottom land. 14 acres in corn, 15 acres orchard grass and clover, 10 acres meadow, balance in blue grass.

These farms are noted as being the most productive farms in Casey County. In a high state of cultivation. Level and gently rolling limestone soil, and must be seen to be appreciated.

The farms will be subdivided and sold in small tracts with the privilege to the purchaser to buy as many tracts as he desires. You will have the opportunity to buy the improvements with a small acreage, or just as many acres as you want, or to buy the unimproved land. Two splendid orchards on the 70 acre tract.

TRACT NO. 3—unimproved grass and timber land.

These farms are located in a good community, right at Middleburg, a thriving village of three hundred people, two churches, Graded and High School, Splendid progressive Bank, a number of stores. In fact a good business community.

The productiveness of the soil and the first class improvements will appeal to you.

Will be sold on easy terms and for possession January 1st, 1921. Now is the time to buy. Do not delay. This farm will be sold to the high dollar, without reserve, by-bid or limit. Any price you pay on the day of sale you can sell for at a profit before you have to pay for the land. SWINEBROAD is the only man who universally advertises **NO BY-BIDS** and he "ALWAYS SELLS" just as advertised.

FARM STOCK

BEGIN FIGHT ON "T. B." NOW

Every Live Stock Owner Should Boost Campaign Inaugurated to Eradicate Tuberculosis.

(Prepared by the United States Department of Agriculture.)

Live stock owners are earnestly requested not to wait until the states and federal government come into their localities to eradicate tuberculosis. It would not be possible indeed, at this stage to undertake to eradicate tuberculosis from the live stock of the United States solely through organized official forces established by the respective states and the federal government. The area over which tuberculosis has spread is too vast, the herds too numerous, and funds are insufficient for conducting the work on so extensive a plan even though trained veterinarians were available in sufficient numbers to do the work. Every live-stock owner should be a party to this campaign which has been inaugurated to eradicate tuberculosis. In almost every locality of the United States are veterinarians capable of rendering valuable services to live-stock owners in this great work, and the cost of eradicating is greatly reduced by combating the disease in its early stages. Yet even in badly affected herds eradication can be undertaken with success. There are records of many herds, in which three-fourths

Bull in Advanced Stage of Tuberculosis.

of the animals were affected with tuberculosis, which eventually were freed from it and afterwards maintained in a healthy condition.

FISH BY-PRODUCTS FOR HOGS

Bureau of Animal Industry is Making Tests of Material as Protein Feed for Swine.

Co-operating with the bureau of fisheries, the bureau of animal industry of the United States department of agriculture is making tests of fishery by-products as hog feed. For several years these bureaus have been studying the use of fish meal as a protein feed for swine and the product has been found equal to high-grade tankage, of which the supply is inadequate. During the last fiscal year a new product known as shrimp bran was studied. The result of tests with it as compared with fish meal were favorable, the remainder of the ration being shelled corn and middlings.

PUREBRED HOGS PROFITABLE

At Least Twice as Much Should Be Realized From Breeding Stock as Those for Market.

Purebred hogs of any of the well known breeds are more profitable than grades. As at least twice as much should be realized from the sale of breeding stock as from market hogs. The purebreds also are generally better feeders than the grades. That is they will make better gains for the feed consumed.

RIGHT AGE TO BREED GILTS

Some Breeders Wait Until Animal is Fourteen Months Old—Aim for Two Litters Yearly.

Some breeders prefer not to breed a gilt until she is about fourteen months old, so that her first litter is produced when she is approximately eighteen months of age, and she is then bred to farrow every six months thereafter.

THREE STOCK FUNDAMENTALS

Feeding, Breeding and Care Are Big Factors in Production of Animals of Quality.

The three fundamentals in live-stock production are feeding, breeding and care, with a strong emphasis on feeding, because good feeding builds the frame work, produces good show animals and makes good records.

DANGER IN STANDING WATER

Sheep and Cattle Should Be Kept Away From Stagnant Pool on Account of Disease Germs.

Standing water should never be allowed to remain where sheep and cattle can get free access to it, as it always has some kind of disease breeding germs in it, and results in the loss of stock occasionally.

Cracks at Creation.

Never try to explain a failure. Your friends know all about it.

Often the man who never lends nor borrows hasn't the ability to do either.

Even the most hardened political trickster becomes a great man after death.

Buy a horn. Blow into it. Make a noise for this town. You will be heard.

There are times, however, when the more we learn the less we desire to know.

Any man with a good reputation can borrow money, but it takes more than a rep to pay it back.

With Carranza in his grave at the hands of a treacherous and brutal assassin, there is a possibility of a return to something like normal conditions in Mexico. A possibility—that's all.

Modern civilization is popular in at least one respect. It is becoming a great aid to the double standard of morality.

An exchange says it is less dangerous to steal whisky than to buy it. No, there was no information as to where it was cached.

We hasten to join our brothers of the press in saying nice things of the slain Carranza. We may want the same courtesy when we kick off.

Want to know who your friends are? Just let it become known that you have a little something hidden away and you will soon learn.

DELEGATES OPEN-MINDED.

By Rodney Bean.

Chicago.—The Republican National Convention faces an unprecedented situation. Old-time leaders appear to be not only in actual control of the convention from the moment that the National Committee begins to hear the contests for the temporary roll, May 31, but they have gained so many more uninstructed and unpledged delegates than they started out to get that they may find themselves unable to handle successfully their own main body, to say nothing of the reserves.

For the first time since the initial Republican National Convention of 1860, there is an actual majority of uninstructed delegates about to sit in a national convention. The early plea for an uninstructed and deliberate body of delegates put out by the Old Guard has been taken at more than its original face value. The result now seems to be that the convention will be actually deliberative, and one that the Old Guard may not be able to handle, even with a balance of power conceded.

Down to Wood and Lowden.

Anti-Wood men affirm that General Wood cannot obtain more than 270 delegates on the first ballot. Colonel Procter, the Wood manager, however, claims 285 on the first ballot. Governor Lowden claims from 210 to 250. The judgment in Chicago is that Hoover, Johnson and Harding are eliminated so far as the real prize is concerned, and the construction is rowing that there will be no dark horse.

The aggregate of uninstructed and unpledged delegates will be nearly 100 greater than the majority required to nominate, 490. This may be reduced somewhat before the convention assemblies by the change of near-promises into actual pledges to one or another of the candidates. But it now seems apparent that more than 525 of delegates will without straits and prepared to go through with the general programme that has been advocated by conservative party leaders ever since the inception of the campaign, namely, that the national convention be a deliberative body prepared to nominate only a candidate who can surely be elected by the Republicans in November.

Convention Tickets At \$100 Each.

The National Committee meets one week from to-morrow to begin hearing of the contests for places on the temporary roll.

More than 150,000 applications have been put through all available sources, it is estimated, for the 13,069 tickets that will be issued for the convention. This is the greatest demand ever known. The following rules govern the issuance of tickets: "The National Committee from each State will have sole control of the receipt and distribution of all tickets of each State."

"The Chicago Convention Committee, through the Chicago chairman, Fred W. Upham, has allotted its available tickets solely upon the basis that a \$100 contribution to the convention expense fund of \$150,000 entitles that subscriber to a claim to one convention ticket."

GIVING OUT

The Struggle Discourages Many a Citizen of Lancaster.

Around all day with an aching back. Can't rest at night; Enough to make any one "give out." Doan's Kidney Pills are helping thousands. Ask your neighbors! They are for kidney backache; And other kidney ills. Here is Lancaster proof of their merit:

Mrs. Joe Turner, Tipton Ave., says: "A few years ago my kidneys got out of order and I had backaches. I felt dull and languid and tired easily. My kidneys acted irregularly, too. A friend told me of Doan's Kidney Pills and I bought some at Stormes' Drug Store. They rid me of the backache and put my kidneys in good order."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Turner had. Foster-McMullen Co., Mfrs., Buffalo, N. Y.

FARMER

Invests 72 Pounds Of
Silver, Savings Of
Many Years, In
Motor Car.

The importance which farmers attach to the light commercial car as a means of providing quick haulage was brought forcibly to the attention of a California dealer a short time ago.

Norman E. Briggs, salesman for the Miller Automobile Co., of Sacramento, called at the home of an Italian farmer and notified him that his new Dodge Brothers Screen Side business car was ready for him. He was asked to wait a minute while the farmer got the money.

Briggs waited exactly an hour and a half, and then was summoned to the back yard. There, in the privacy of his arbor and under the careful surveillance of his good wife and the family watch dog, the farmer had laid out the price of the car on two tables—all in silver. The coins were all quarters, halves and dollars, piled \$10 in a stack.

When the salesman undertook to check up he quickly understood why he had been left setting on the front door-step so long. It took him another hour and a half to make sure that he hadn't been overpaid.

The price the farmer paid for his car was 72 pounds of silver.

A pile of rusty tomato cans told the story of years of saving, probably one or two cans at a time. But the smiles and words of appreciation that accompanied delivery of the car left no doubt that the farmer and his wife felt sure they were making a wise investment.

A subsequent call by the salesman found the farmer even more delighted than before. He was using the car to carry his produce to Sacramento in about one-tenth the time formerly consumed, and had already found that he no longer needed an extra man to help him on the farm.

Rheumatism Relief--25c.

Nature's Remedy (NR Tablets), Are
Helping Thousands Who Tried
Expensive Things Without Result.
It's Guaranteed.

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of waste. Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious ills.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as rheumatic poison is allowed to remain in the body?

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things?

A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory benefit or cost you nothing.

Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the system. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Just try it. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

HOW EUROPE CAN ESCAPE COLLAPSE

We Must Aid by Extending Credits, Says Davison.

GRAVE MENACE TO U. S. A.

European Ruin Would Involve America—Starvation and Disease Rampant.

Des Moines, Ia.—Speaking before the General Conference of the Methodist Episcopal Church, Henry P. Davison, chairman of the Board of Governors of the League of Red Cross Societies, said:

As chairman of the Convention of Red Cross Societies, composed of representatives of twenty-seven nations that met recently in Geneva, I am custodian of authoritative reports recording appalling conditions among millions of people living in eastern Europe.

One of the most terrible tragedies in the history of the human race is being enacted within the broad belt of territory lying between the Baltic and the Black and Adriatic Seas.

This area includes the new Baltic States—Poland, Czechoslovakia, the Ukraine, Austria, Hungary, Roumania, Montenegro, Albania and Serbia.

The reports which come to us make it clear that in these war-ravaged lands civilization has broken down. Disease, bereavement and suffering are present in practically every household, while food and clothing are insufficient to make life tolerable.

Men, women and children are dying by thousands, and over vast once-civilized areas there are to be found neither medicinal appliances nor medical skill sufficient to cope with the devastating plagues.

Wholesale starvation is threatened in Poland this summer unless she can procure food supplies in large quantities. There are now approximately 250,000 cases of typhus in Poland and in the area occupied by Polish troops.

Worst Typhus Epidemic in History.
This is already one of the worst typhus epidemics in the world's history. In Galicia whole towns are crippled and business suspended. In some districts there is but one doctor to each 150,000 people.

In the Ukraine, we were told, typhus and influenza have affected most of the population.

A report from Vienna, dated February 12, said: "There are rations for three weeks. Death stalks through the streets of Vienna and takes unhindered toll."

Budapest, according to our information, is one vast city of misery and suffering. The number of deaths is double that of births. Of the 100,000 children in the schools, 100,000 are dependent on public charity. There are 150,000 workers idle.

Typhus and smallpox have invaded the four countries composing Czechoslovakia, and there is lack of medicines, soap and physicians.

In Serbia typhus has broken out again and there are but 200 physicians to minister to the needs of that entire country.

In Montenegro, where food is running short, there are but five physicians for a population of 450,000.

America Overflowing With Riches.
Returning to the United States a few weeks ago with all these horrors ringing in my ears, I found myself once more in a land whose granaries were overflowing, where health and plenty abounded and where life and activity and eager enterprise were in the full flood.

I asked myself: "What if this plague and famine were here in the great territory between the Atlantic seaboard and the Mississippi valley, which roughly parallels the extent of these ravaged countries and that 65,000,000 of our own people condemned to idleness by lack of raw material and whose fields had been devastated by invasion and rapine were racked by starvation and pestilence and if we had lifted up our voices and invoked the attention of our brothers in happier Europe to our own deep miseries and our cries had fallen on deaf ears, would we not in our despair exclaim against their heartlessness?"

Only Three Ways to Help Europe.
There are only three ways by which these stricken lands can secure supplies from the outside world. One is by payment, one by credit, and the third is by exchange of commodities. If these peoples tried to buy materials and supplies in America at the present market value of their currencies Austria would have to pay forty times the original cost, Germany thirteen times, Greece just double, Czechoslovakia fourteen times and Poland fifty times. These figures are official and are a true index of the economic plight of these countries.

It is clear, therefore, that they cannot give us gold for the things they must have, nor have they either products or securities to offer in return for credit. If only they could obtain raw material which these idle millions of theirs could convert into manufactured products they would have something to tender the world in return for its raw material, food and medicine. But if they have neither money nor credit how are they to take this first great step towards redemption?

One-half the world may not eat while the other half starves. How long do you believe the plague of typhus that is taking a hideous death toll in Estonia and Poland and the Ukraine and eating along the fringes of Germany and Czechoslovakia will confine itself to these remote lands?

Only last Saturday our health com-

missioner of New York, Dr. Copeland, sailed for the other side just to measure the danger and take precaution against such an invasion.

This is one menace at our threshold. The other, more threatening, more terrible, is the menace of the world's ill will. We can afford to die, but to be despised forever as a greedy and pharisaical nation is a fate that we must not incur.

The French government has many serious problems to solve, but the French peasant is working and the French artisan, while still sadly in need of raw materials, has not lost his habit of industry and thrift. The most encouraging fact about France today is that her people are alive to the seriousness of France's problem, and they are going forward bravely to solve that problem.

Italy, despite her great shortage of raw material, is looking forward and not backward. Italy can be relied upon to do her part!

England is meeting the problems of reconstruction just as those who knew her past should have expected her to meet them.

Plan to Aid Central Europe.

It is not for me perhaps to give in detail a formula for solution of the world's ills, but as I have been asked many times, "What would you do?" I am glad to give my own answer.

Accordingly, I would ask:

1. That Congress immediately pass a bill appropriating a sum not to exceed \$500,000,000 for the use of Central and Eastern Europe.

2. That Congress call upon the President to appoint a nonpolitical commission of three Americans, distinguished for their character and executive ability and commanding the respect of the American people. Such a commission should include men of the type of General Pershing, Mr. Hoover or ex-Secretary Lane. I would invest that commission with complete power.

3. I would have the commission instructed to proceed at once, accompanied by proper personnel, to survey conditions in Central and Eastern Europe and then act for the restoration of those countries under such conditions and upon such terms as the commission itself may decide to be practicable and effective. Among the conditions should be provided that there should be no local interference with the free and untrammelled exercise by the commission of its own prerogative of allocating materials. Governmental policies should be eliminated; unreasonable and prejudicial barriers between the various countries should be removed, and such substantial guarantees as may be available should be exacted in order that the conditions imposed should be fulfilled.

4. As to financial terms, I should make them liberal. I would charge no interest for the first three years; for the next three years, 6 per cent, with provision that such interest might be funded if the economic conditions of the country were not approaching normal, or if its exchange conditions were so adverse as to make payment unduly burdensome. I should make the maturity of the obligation 15 years from its date, and I should have no doubt as to its final payment.

5. Immediately the plan was adopted I would have our government invite other governments in a position to assist, to participate in the undertaking.

6. To set forth completely my opinion, I should add that in the final instructions the American people, through their government, should say to the commission:

"We want you to go and do this job in such a manner as, after study, you think it should be done. This is no ordinary undertaking. The American people trust you to see that it is done right."

I would also say to the commission: "Use so much of this money as is needed." Personally, I am confident that with the assistance and co-operation which would come from other parts of the world the sum of \$500,000,000 from the United States would be more than enough to start these countries on their way to self support and the restoration of normal conditions.

The whole plan, of course, involves many practical considerations, the most serious of which is that of obtaining the money, whether by issuing additional Liberty bonds, an increase in the floating debt or by taxation. But I think we could properly say to the treasury department:

"We know how serious your financial problems are; we know the difficulties which are immediately confronting you; we know the importance of deflation, and we know that the government must economize and that individuals must economize, but we also know that the American government advanced \$10,000,000,000 to its allies to attain victory and peace. Certainly it is worth making the additional advance in order to realize the peace for which we have already struggled, for nothing is more certain than that until normal conditions are restored in Europe there can be no peace."

Above all things, I would say that whatever action is taken should be taken immediately. The crisis is so acute that the situation does not admit of delay, except with the possibility of consequences one hardly dares contemplate.

The situation that I have spread out here is far beyond the scope of individual charity. Only by the action of governments, our own and the others whose resources enable them to co-operate, can aid be given in sufficient volume. I am also confident that our action would be followed by the governments of Great Britain, of Holland, of the Scandinavian countries, of Spain and Japan, and that France and Belgium and Italy, notwithstanding all of their losses, would help to the best of their ability.

Ready Acquiescence.
"You haven't explained how you happened to have these chickens in your possession," said a magistrate sternly to the prisoner. "I'm trying to think, yer worship. Give me time," replied the prisoner. "I will. Fourteen days!"

Excellent Legic.
Harrieth and Rosalind were playing together nicely when suddenly Rosalind lost her temper and told Harrieth and the dolls exactly what she thought of them. Harrieth listened gravely until Rosalind was through and then said: "Mother, Rosalind must be an awful thoughter inside to say such things outside."

Cherry Tree's Home.
Kernsoun in Asia Minor is the home of the cherry tree. When the Roman general Lucullus, after a victorious campaign in Asia Minor, carried home the shoots of a new tree he named it the Kernsoun tree. Later the name was shortened to "Kerass," then to "Cerise" and finally the Anglo-Saxon tongue involved the word "cherry."

Cultivated Chestnuts.
Southern Californians are wondering whether the growing of the sweet chestnut is not destined to be one of the coming industries of the state. The appearance of a fine row of chestnut trees on the outskirts of the city of Santa Ana, in Orange county, California, suggested to a recent eastern visitor the fact that the chestnut as a future crop for California may rival before many years the enormous walnut output.

Thought.
Men fear thought as they fear nothing else on earth—more than ruin, more even than death. Thought is subversive and revolutionary, destructive and terrible; thought is merciless to privilege, established institutions, and comfortable habits; thought is anarchic and lawless, indifferent to authority, careless of the well-tried wisdom of the ages. Thought looks into the pit of hell and is not afraid.—Bertrand Russell.

Art Criticism.
A neglected painter in Brooklyn named Tilton, carried away by his enthusiasm for his own productions, declared at a studio tea to a group of his devotees: "After all, there are but three great painters—Titian, Tintoretto and Tilton." When the remark was repeated to Mrs. W. W. Storey, mother of the eminent painter, Julian Storey, she exclaimed: "Well, the only thing I know to equal the 'Assumption' of Titian is the assumption of Tilton."

Milk From Coconuts.
Along the Orange river natives have an ingenious way of producing "milk." After cutting the top from a coconut they place it over ashes so that the warmth may cause the fat and "butter" contained in the husk to be absorbed by the milk; this changes the milk's quantity and gives it a palatable taste.

Honor Welsh Patron Saint.
In Queensland March 1 is kept as a holiday sacred to St. David, the patron saint of Wales, who resided in Menevia, which early became a popular place of pilgrimage. William the Conqueror, Henry II and Edward I went to this place. Two pilgrimages to Menevia were commonly regarded as the equivalent of one pilgrimage to Rome.

Salvadorian Celebrations.
The people of Salvador celebrate March 15 as a holiday in honor of General Morazan, who was elected president in 1820 of the Central American federation. In 1822 he suppressed an insurrection against the federal government in Salvador. In 1838 a revolution in Guatemala and in 1842 in Costa Rica. The people of Salvador also celebrate March 1 as a holiday.

Early United States Coins.
The office of the director of the mint says that the earliest coins were authorized by act of congress of April 2, 1792. This act authorized the manufacture of the ten dollar gold eagle, half eagle, quarter eagle, and the silver dollar, half dollar, quarter dollar, dime and half dime. It would be impossible to state which were minted first, as they were all coined about the same time.

Genuine Polish.
Some people are rusty; their harsh, ungainly manners cut out whatever is good in their own character. Some people are glib; a very brilliant exterior they present, but the first brush and hard using rubs off the gilding and reveals of bare metal beneath. A third class is polished. The polish indeed is on the multifarious creases of human life, the more it is rubbed the brighter it grows.

Napoleon's Choice of Reading.
A traveling library of 800 volumes accompanied Napoleon to Waterloo, included in these being the Bible, Homer, Ossian, Bossuet, and all the 20 volumes of Voltaire. Three days after his final abdication he wrote for a library from Malmaison, which included books on America, himself and his campaigns, a collection of the "Moniteur," the best dictionaries and encyclopedias.

Little Hope of Relief For Victims of Catarrh

Unless Old-Time, Obsolete Treatment Is Discarded.

Doubtless during the mild summer months you have enjoyed some relief from the disease, because there is always less inflammation of the membranes during the summer, but do not make the mistake of thinking that your Catarrh is gone, for the very first raw, damp, wintry day, the delicate linings of the membranes will begin to again become irritated and sore, the air passages will begin to clog up, and soon you will find that your old enemy is still with you, with a fiendish intention of making the winter as full of discomfort as ever.

What are you going to do about it? If you have had the disease for any length of time, the chances are that you have used enough local remedies to convince you that there is no cure for you in this method of treatment. Are you going to drag through another winter hawking and spitting and spraying constantly in an effort to unclog the stopped up air passages so that you can get your breath for awhile, knowing that these accumulations will immediately reappear—or are you going to discard this makeshift treatment, and use a little intelligence in an effort to get rid of this disease that is such an annoyance and a constant handicap?

You must accept the teachings of science, which shows that to get rid of any disease, you must treat it at its source, you must direct your efforts toward removing its cause, instead of being satisfied with slight temporary relief from its symptoms. You must root out from your blood the millions of tiny germs which cause Catarrh, so that there can be no more inflammation of the nose and throat, and choked up nasal passages that make breathing difficult and painful.

S. S. S., the fine old blood remedy, has given splendid results in the treatment of Catarrh, and you will be delighted with its effect on your case. It so purifies and cleanses the blood, that disease germs are eradicated, hence when the germs of your Catarrh are eliminated from the blood, you are on the right road to a permanent ridance from the disease. Go to your drug store, and get a bottle of S. S. S. to day and begin the real rational treatment that will give real results.

If you will write our medical department, we will take pleasure in giving instructions regarding the treatment of your own particular case. Address Chief Medical Adviser, 15 Swift Laboratory, Atlanta, Ga.

KEEPING CATTLE AND SWINE

It Remains to Be Determined What Are Most Common and Best-Paying Propositions.

The keeping of cattle and of swine appear to be almost inseparable operations. This fact is being brought out in the returns of the "Better Stock—Better Stock" crusade of the agricultural colleges, the United States department of agriculture and co-operating agencies. This general practice has long been known, but much more definite information is being gathered, and the purpose is to extend it to such an extent as to determine the relationships among all meat animals.

If nearly every man who keeps cattle also keeps hogs, and if nearly every man who keeps hogs also keeps cattle, the inevitable conclusion is that the combination pays, especially when purebred sires are used. But it remains to be determined what are the most common and the best-paying proportions. The same thing applies also to combinations of cattle and sheep, or swine and sheep, or cattle and sheep and swine. One benefit of the work will be that it will enable the man of small personal experience to avail himself of the wide experience of a great number of men in working out the combinations of meat animals that he will carry on his farm.

ECONOMICAL FEED FOR BEEF

As Silage Becomes Better Known Feeders Will Better Appreciate Its Feeding Value.

There is no doubt but that silage is an economical feed in the beef-cattle ration and as its value becomes better known feeders will better appreciate its merits. In spite of the fact that it is an unbalanced feed itself, it can be fed with one of the highly concentrated feeds, such as oil meal or cottonseed meal, and makes a ration which is surely hard to beat in fattening cattle.

CARE OF EWE IS IMPORTANT

Machine Through Which Lamb Will Obtain Qualities to Enable It to Top Market.

What is done for the lamb is not so important as the care and liberal feeding of the ewe. The ewe must be regarded as the machine through which the lamb will obtain the qualities that will enable it to top the markets.

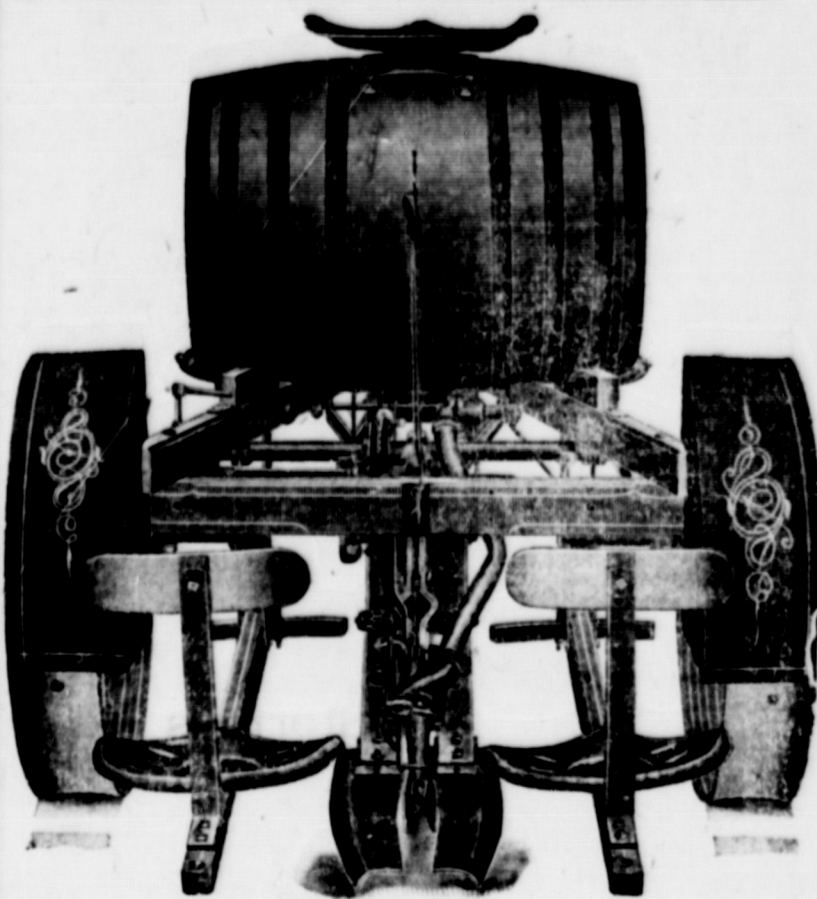

LIVE STOCK NOTES

It is very essential that ewes should be properly fed.

A self-feeder can be used to excellent advantage for fattening hogs and pigs.

Better live stock aids the breeder both in direct returns and by giving a locality a favorable reputation.

In the cold months many farmers fail to give the stock enough salt. Salt is a vital part of each animal's ration.

THORNHILL WAGONS

SOME Thornhill owners constantly comment on the ease with which the wagon can be "backed up." This is due to the full circle iron. The ordinary circle is but a half circle (○). In making a sharp turn bolsters often run to the end of the track and become "derailed." Thornhills cannot do this because their track is a circle (○).

Others comment on the fact that in spite of tremendous overloads, Thornhill axles never break. The reason for this is plain. They use tough highland hickory—reinforced by a steel truss bar that extends the full length of the axle.

Still others comment that the gears never get out of line. This unusual feature is due to one of their workmen's inventions. He designed a malleable front hound plate—bolted to the gears at eight points. It's literally a jacket of iron that holds gears in line and insures light running for life.

From hilly sections come reports that the old trouble of broken king bolts is unknown among owners of Thornhill wagons. This because of a cup and saucer arrangement on the bolsters

that relieves the king bolt of strain.

To others the amazing feature is the long life of Thornhill beds—due to their location which gives them the pick of the yearly cutting of wood and due, in part, to the fact that they paint with pure lead and linseed oil despite its high cost.

Thousands of owners have found in Thornhills unusual strength where they are accustomed to weakness.

Let us show you this perfected wagon.

NEED QUALIFIED SHEPHERDS

Important That Sheep Raising Be Encouraged Where Conditions Are Suitable for It.

(Prepared by the United States Department of Agriculture.)

"I am not convinced that a general campaign to increase the number of small-farm stocks of sheep is thoroughly wise unless the field for such an effort is first prepared," said Dr. J. R. Mohler, chief of the bureau of animal industry, in an address before the More-Sheep-More-Wool association. "There must be established a popular understanding of principles which experienced sheepmen are likely to take for granted.

"With dairy herds we find that best methods of production seldom prevail when only a few animals are kept. The owner of a very small herd is not often interested in better breeding, feeding or disease control. He is not a dairyman. But when he has a herd of a dozen cows or more he becomes a real asset to a great dairy business.

"So with sheep. We must aim, it appears to me, not so much for an increase in the number of flocks as an increase in the number of sheep kept by men who are real shepherds or have the qualifications and desire to become shepherds. Nor should we forget that farmers in general may not be versatile enough to add a profitable

Select the individuals of the Foundation Flock with the Greatest of Care.

flock of sheep to their present live stock. It is, therefore, important that sheep raising be encouraged chiefly where the land and other conditions are suitable for it."

MANY ASSOCIATIONS FORMED

One of Purposes Is to Eliminate Scrub Sires and Replace Them With Purebreds.

Fifty-nine live-stock breeders' associations, with a reported membership of 1,524, were organized during the last fiscal year with the help of the United States department of agriculture extension specialists. In addition numerous calf clubs were organized among the boys and girls. Much of the work is being done in regions where the beef-cattle industry is practically new.

One of the purposes of beef-cattle extension activities is to eliminate scrub bulls and replace them with purebreds of good quality. The federal workers co-operate with the state agricultural colleges through their extension divisions and particularly with county agents.

SILAGE FOR LITTLE CALVES

Heavy Ration Fed to Young Animals Has Tendency to Cause Repeated Scouring.

Young calves under a year old do not benefit from a heavy silage ration, because on such young animals it has a tendency to cause repeated scouring. It can, however, be satisfactorily fed to calves between six months and one year old, provided it is limited to a small part—say not more than one-third—of the weight of the entire ration.

GREATEST DEMANDS ON EWES

Important That Animals Be in Proper Condition Prior to Lambing for Best Results.

It is during the suckling period that the greatest demands are made on the ewes, and in order to have the ewes in condition to stand this drain on their systems it is necessary for us to see to it that they are in good condition of flesh prior to lambing.

MAKE PROFIT OUT OF LAMBS

Young Animals Must Be Fed for Period in Dry Lot on Harvested Feeds for Top Price.

While it is entirely possible to make money out of lambs by feeding entirely in the fields, yet to make market-toppers they must be fed for a period in the dry lot on harvested feeds, some feeders combining field feeding and dry-lot feeding at the same time.

CHANDLER SIX

Famous For Its Marvelous Motor

The Chandler Gives You the Service You Demand

THOUGHTFUL men, in selecting an automobile, find in the history of the Chandler Six a source of real confidence.

The Chandler motor of today is the development of the Chandler motor of seven years ago, embracing refinements and improvements which have been the natural development of these years of service in the hands of thousands of owners, and the constant application of the engineering skill and the sincerity of its builders.

Motors of one type and another have been heralded and retired within these years. But the Chandler motor, its true superiority proven in service on every roadway in America and in many nations abroad, has lived and gone forward into a place of distinction.

Men who have owned and driven many cars, men from coast to coast, will tell you the Chandler is the leader of all sixes. Over the long mountain roads or on the trails of the desert or in crowded city traffic, anywhere, the Chandler will give you the service you demand. Its power, its flexibility, and its sturdy endurance are not surpassed.

Aberdeen-Angus Sale

42 Head Top Notcher Highly Bred **42 Head**
Bulls, Cows and Heifers

TO BE SOLD ON OUR NEW FARM, 2 MILES FROM DANVILLE, ON THE PERRYVILLE PIKE, DANVILLE, KENTUCKY,

WEDNESDAY, JUNE 16th 1920

PROPERTY OF A. D. AND WALKER BRADSHAW, LANCASTER, KENTUCKY.

You will find this an extraordinary offering of Angus Cattle. There will be very few offerings of Angus Cattle made this season that will equal this offering. They have the **OUTSTANDING INDIVIDUALITY** and their blood lines are **MOST WONDERFUL**. Only the most fashionable and the most valuable families are listed for this **GREATEST ANGUS EVENT**.

BLACK CAPS, BLACKBIRDS, TROJAN, ERICA, PRIDES OF ABERDEEN, K. PRIDES AND QUEEN MOTHERS, LADY IDA, ETC.

Every animal in this offering is absolutely guaranteed to be right. Only six bulls have been catalogued for this **GREAT** offering. Everyone will stand the most rigid examination. Their individuality is most pleasing and their bloodlines are unquestionable. Each and every one has much to recommend him to the breeder who is looking for a **TOP-NOTCHER** herd bull. Ages that are most useful—15 to 18 months old. Fresh from first hands. There is scarcely a breeder in the land that would not be proud of one of these **HIGH CLASS** bulls at the head of his herd.

The 36 cows and heifers listed in this extraordinary event are what one would pronounce **MOST EXTRAORDINARY**. Most of the cows have calves at foot or close to calving, to the services of Black Cap Royalty which is closely related to the \$45,000. grand champion Black Cap Bertram, the breed's greatest bull ever produced.

The cows and heifers in this greatest of all Angus doings, for individuality, bloodlines, usefulness and superior value are unexcelled. They are teeming in the blood of the greatest sires the breed has ever produced. You will find the condition of these cows and heifers the most perfect for profitable money-makers. You will find show-yard prospects among the cows, two year old yearlings and suckling calves. There has never been such an opportunity for the established breeder to make choice selections to strengthen his herd, and the beginner surely has the chance of his life to get a way on the right foot in founding a new herd.

Do not overlook the fact that you have breeders behind these cattle whose word is as good as a gold bond, and you can assure your self a square deal.

June 16th promises the greatest event ever taken place in Angus circles South of Dixie. By all means arrange to see this **EXTRAORDINARY** offering.

Grateful for Rain.

To show how badly rain was needed, a native who came to Newcastle market with his wagon was so overjoyed that he rushed into the center of the street in front of the town hall when the storm was at its severest and offered up a prayer of thanksgiving. He then started drinking the muddy water as it flowed past him.—Johannesburg (Transvaal) Sunday Times.

Day of the Penny Gone.

Coralie had often gone on numerous errands for me, charging a penny for each trip. I had not had so many errands for her of late and the tiny miss does not earn so many pennies. Today I asked her to go uptown for me, and in a hesitating manner she informed me, "I will have to charge you 2 cents instead of 1, 'cause I can't buy anything little girls want with one penny."—Exchange.

Cats' Crimes Against Birds.

It is estimated that there are 50,000,000 cats in the United States. If one-fourth of this number kill birds, each cat killing only five birds per annum, it would mean over 31,000,000 birds killed by cats each year in the United States; but it has been carefully estimated by Dr. A. K. Fisher that each cat averages 20 birds per annum, and still "Tabby" is excited to the seat of honor.—Los Angeles Times.

Budding Financier.

My daughter, in company with another girl, went to the grocery store to get some grapes. The other girl asked for a nickel's worth, and when the grocer handed them to her my little girl asked for a cent's worth. The grocer said: "Ruth, I don't sell a penny's worth of grapes." Ruth said: "You will sell six cents' worth, won't you?" The grocer said yes, then Ruth said: "Well, then put a penny's worth in that bag." The grocer laughed and gave her the grapes.—Chicago Tribune.

Mohammedan New Year.

The Moharram marks the beginning of the Mussulman's new year, but the date is movable, and determined by the moon. It chiefly commemorates the death of the martyrs. Ali, the prophet's son-in-law; Hasan, his grandson (poisoned by his wife), and Hosain, the younger brother, killed at Kerbela.

Agreed With Daddy.

Marjorie liked to play in the ground feed her father mixed up for his horses. She had been scolded for this without effect. Glorious Revenge.

Brother had gone to a basketball game and left little sister at home, very much to her disapproval. She began at once to lay plans for revenge, saying: "Mother, I know what I'll do. I'll just go with you to the dentist tomorrow and have a tooth pulled. I'll fix him and won't be sorry!"

Circassian Walnut.

Circassian walnut is sold by the pound or the ton and not by the foot. As early as 116 B. C. it was introduced into Italy from Persia. The legs are sold from the forest with their bark on. Only the heart of the wood is used, and it is the crooked, irregular logs that possess the best figured wood.

Built for Fighting.

The beak of the eagle is sharper and stronger than that of the vulture, and the claws, being required for the capture of living prey, are much more boldly curved and more sharply pointed. The beak of the eagle is nearly straight for some distance from the base and then suddenly turns downwards into a sharp hook.

The Angle Sanders Farm with Big Brick Residence

ON BUCKEYE PIKE, AT

AUCTION

Saturday, June 5, 1920

AT 10 A. M. PROMPTLY.

Put your arms around me husband and promise me you will go and buy that home. Which one do you want? That **BRICK HOUSE** on the Buckeye pike that would cost us \$25,000 now to build. Its on high ground where I would like to live; certainly a sweet home for me.

TOBACCO BARN, SILO, LOTS OF WATER AND GRASS, STOCK SCALES, in fact everything you could want, and for children, Dave Long, Uncle Bill Simpson and folks like that, love to raise a family amid influences like that. Right on the pike rural route and close to a good school.

Oh! yes, you know the farm; its the Nath Bogie farm, where J. M. Walker used to live and Arch Kavanaugh; all of these men got rich. Ask and see. Angle Sanders lives there now, right on Buckeye pike, Garrard county, Kentucky. Looks to me like its a lucky place.

I want you to go with me and lets buy it and be at home. If you quit bidding after you have commenced, I am going to hand you a baby rattle. Everyone would know you were a baby if you didn't buy it and on the easiest terms I have ever heard of. 40 per cent in Garrard county land notes, government bonds taken on first payment as cash; balance in ten years, with 6 per cent interest from January 1st, 1921.

A BRASS BAND will furnish music for the occasion. Good Dinner promptly at twelve o'clock; free and wholesome soup and light bread will be served. Bring your tin cups with you. I have the men to make the soup. While this is being served, the band will play "A Charge to Keep I Have" and "Nearer My God To Thee". Bear in mind this is the age of progress. "Men to your Overalls" is the slogan now. Cut expenses and stay in the procession.

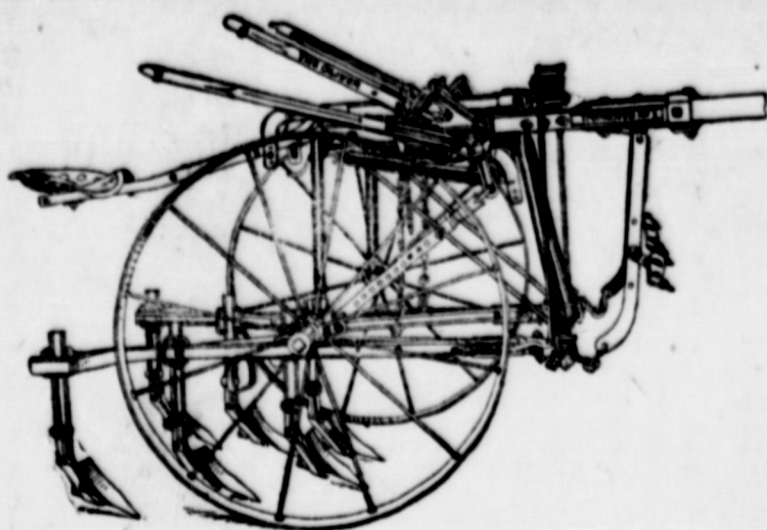

Immediately after the soup eating, the wide awake merchants of Lancaster—Batson, Smith, Logan and Anderson Bros, Joseph and Dickerson will take orders for tailless shirts for men only. R. E. McRoberts, the druggist will be on hand to display the marvelous wonders of his famous sheep Dip. Goodloe and Walker Brothers, Haselden Bros, Conn Brothers and J. R. Mount, will demonstrate to you, who do not own one, the benefits of a Manure Spreader. All of you fellows who get full of free soup and have had symptoms breaking out at the mouth, talking hard times, your gall is working overtime, your gall ducts are discharging too freely. Free tobacco will be served after the soup eating. Do not fail to ask your neighbor for it. Tell him you left yours in your other pants pocket; he wont know that you haven't but one pair. He will serve you promptly. No green flies will be allowed on the grounds. Palm Leaf Fans will be served promptly, if the wind is not blowing.

\$10.00 IN GOLD WILL BE GIVEN THE COUPLE WHO HAVE BEEN MARRIED THE LONGEST AND ARE ON THE GROUNDS.

It will be all over when the band plays "Blessed Be the Tie That Binds."

Make
Your Home
a
Cheerful Home

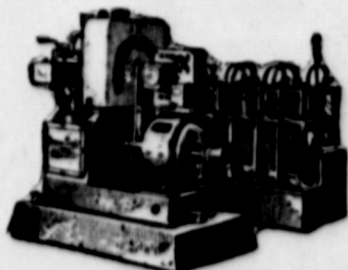

You can't expect folks to be happy and contented where the home is in half-darkness and premeated by the smell of smoky lamps. Every member of your family is entitled to all the bright electric light which city folks have. If somebody asked you to buy an expensive plant that simply furnished light and no more, you might have some good arguments against such a purchase, but when you think of a lighting plant that is also a plant capable of operating any and every small machine on your place, that is another matter.

Genco Light

is such a plant. In addition to being a perfect electric lighting plant, it has a pulley by which machines can be run while charging your batteries. When this is done, your lights cost practically nothing. Genco Light is such a positive labor saver that owners figure that this power practically takes the place of farm help. It certainly does enable the help to do more; or less help to do the same work. Genco Light is not a luxury—it is a servant that will increase production and pay for itself in actual dollars and cents. You really owe it to yourself to call here with your wife and see this wonderful plant at work. May we expect you?

FARM ANIMALS

BEEF ANIMAL FOR HOME USE

Unprofitable Cow or Heifer That Does Not Promise to Be Good Producer, May Be Killed.

The farmer buys more beef than he takes from the farm. Only about 10 per cent of meat furnished by the average farm is beef. In the North and West the average consumption of beef per family is nearly 300 pounds and in the South it is less than 100 pounds.

The beef animal killed for home use, suggest specialists of the United States department of agriculture, may be a beef steer or an unprofitable cow, or a heifer that does not promise to be a good producer and would not bring a good price for beef on the market. Very little veal is killed on

Most Farmers Buy Beef From Village Butchers Who Operate Wagons in Country.

the farm for home use. Much of the beef bought by farmers is bought in the summer from village butchers who operate meat wagons or cars in the country. On the average farm there are no facilities for keeping fresh meat during warm weather.

STEER-FEEDING EXPERIMENT

Cottonseed Meal and Velvet Beans Used With and Without Addition of Shelled Corn.

In a steer-feeding experiment conducted last year on the government farm at Beltsville, Md., four lots of two-year-old steers were fed. The purpose was to compare cottonseed meal and soaked velvet beans when used with and without the addition of shelled corn.

The addition of corn to a ration composed of corn silage, cottonseed meal and wheat straw did not pay. The addition of corn to the ration of velvet beans and corn silage was profitable.

The lot receiving corn silage and soaked velvet beans with a small quantity of cottonseed meal as an appetizer produced the most economical gains and showed the greatest profit, even though the daily gains and the selling price of the cattle were lower than those of any of the other lots.

TO DOUBLE VALUE OF STOCK

President of Michigan Association Wants Every Farmer to Agree to Use Only Purebreds.

St. Joseph county, Mich., plans to double the value of its live stock within three years. Current activities to accomplish the purpose are described by William T. Langley, president of the St. Joseph County Live Stock Breeders' association, in a statement he has furnished the United States department of agriculture.

"We want every man," he declares, "to give us a pledge to use nothing but purebred sires."

"We have a sign in the making that reads 'Purebred Sire Farm' that we want posted on every farmyard gate."

"We want nothing but high-grade and purebred females."

A general association has been organized that includes the members of the various breeding associations and also all breeders of grades that pledge to use only purebred sires.

GROUND RYE BEST FOR PIGS

It Is Better Mixed in Equal Parts With Middlings, Ground Oats, Barley or Corn.

It is generally recommended that rye be ground for feeding to pigs. It is best mixed in equal amounts with middlings, ground oats, ground barley or corn. If the mixture is placed in the self-feeder, care must be taken to see that there is a good supply of water available for the pigs. They should have continual access to salt also.

LIVE STOCK NOTES

The higher the breed of cattle, the better is the beef.

There is no danger of a good grade of tankage spreading hog cholera.

A good bull is just as good as a stag as far as market value is concerned.

Horses are as poor as their feet. Always examine this section of their anatomy when a trade is in prospect.
